Problem – Solution Fit Template

Date	18 june 2026
Team ID	
Project Name	HOUSE RENT
Maximum Marks	2Marks

Problem – Solution Fit Template:

The **House Hunt** project addresses the challenges users face in finding suitable properties, such as scattered information, time-consuming searches, and difficulty comparing listings. The solution provides a centralized platform where users can search, filter, view property details, save favorites, and contact property owners or agents easily, making the property search process faster and more convenient.

Purpose:

Challenges Faced by Property Seekers in House Hunt

- ☐ Difficulty finding suitable properties in one centralized platform.
- ☐ Limited access to accurate and up-to-date property information.
- ☐ Time-consuming process of comparing multiple property listings.
- ☐ Difficulty filtering properties based on location, budget, property type, and amenities.
- ☐ Inconvenient communication with property owners or agents.
- ☐ Lack of an efficient system to save, manage, and revisit favorite properties.
- ☐ Difficulty tracking property inquiries and viewing history.

Proposed Solution

House Hunt provides a comprehensive property search platform

that addresses these challenges through:

- A centralized property listing catalogue.
- Advanced property search and filtering functionality.
- Detailed property descriptions, images, pricing, and location information.
- Secure user registration and authentication.
- Favorite properties and inquiry management features.
- Easy communication with property owners or agents.
- Property viewing and tracking features.
- Administrative dashboard for managing properties, users, and inquiries.

Problem – Solution Fit Analysis

Customer Problem	House Hunt Solution
Difficulty finding suitable properties	Centralized property listing catalogue with search functionality
Time-consuming property comparison	Detailed property information, images, pricing, and filtering options
Difficulty searching properties based on preferences	Advanced search and filtering by location, budget, property type, and amenities
Inconvenient communication with property owners	Direct inquiry and contact features
Lack of property tracking and management	Favorites list and inquiry tracking features
Difficulty managing property listings and users	Dedicated Admin Dashboard for managing properties, users, and inquiries

Expected Benefits

Benefits of House Hunt

- Faster property discovery and search.
- Improved property browsing experience.
- Reduced effort in finding suitable properties.
- Secure and reliable user authentication.
- Easy communication with property owners or agents.
- Efficient management of favorite properties and inquiries.
- Better accessibility to property information in one place.

The Problem–Solution Fit confirms that House Hunt successfully addresses the primary challenges faced by property seekers, property owners, and administrators by providing a practical, efficient, and user-friendly platform for property searching and management.

Define CS: Define CC	 1. CUSTOMER SEGMENT(S) Who is your customer? Who uses HouseHunt Home Buying Hub? • First-time home buyers • Upsizing / upgrading families • Real estate investors • Relocating professionals • Seniors looking to downsize • Real estate agents and brokers	 6. CUSTOMER CONSTRAINTS What constraints prevent your customers from taking action or limit their choices? • Limited time to search and visit homes • Too many listings on multiple platforms • Difficulty comparing homes, prices & features • Lack of accurate, up-to-date information • Budget limitations and financial uncertainty • Uncertainty about neighborhoods and future value • Dependence on agents for basic information	 5. AVAILABLE SOLUTIONS Which solutions are available to the customers when they face the problem or need to get the job done? • Local real estate agents • Real estate websites and apps (Zillow, Realtor.com, etc.) • Property developer websites • Social media groups and forums • Word of mouth and referrals • Visiting properties physically	Explore AS: differentiate
	 2. JOBS-TO-BE-DONE / PROBLEMS Which jobs-to-be-done (or problems) do your customers want to get done? • Find homes that fit my needs and budget • Compare homes, neighborhoods and prices • Get genuine photos and details • Shortlist and save favorite homes • Schedule visits and connect with agents • Get help with home loan and paperwork • Make a confident home buying decision	 9. PROBLEM ROOT CAUSE What is the real reason that this problem exists? What is the back story behind the need to do this job? • Information is scattered across many sites • Outdated or incomplete listings • Lack of transparency and trusted advice • Time-consuming to research and compare • No single platform for end-to-end support • Complex buying process and paperwork	 7. BEHAVIOUR What does your customer do to address the problem and get the job done? • Search for homes on multiple websites • Read reviews and neighborhood insights • Compare prices and features • Save listings and share with family • Contact agents or visit open houses • Check loan eligibility and EMI calculators • Evaluate and finalize the home	Focus on BE: Understand RC
Identify through TR & EM	 3. TRIGGERS What triggers customers to act? i.e. what event urges them to start looking for a home? • Need for a bigger or better home • Job relocation or transfer • Marriage or starting a family • End of lease / renting vs owning decision • Investment opportunity • Interest rate changes or market trends	 10. YOUR SOLUTION If you are working on an existing business, write down your current solution fit. If in the canvas, and check how much it fits. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour. HouseHunt Home Buying Hub ✓ Centralized platform for all home listings and property discovery ✓ Advanced search, filters and map-based home search ✓ Detailed property information, photos, videos and virtual tours ✓ Price trends, neighborhood insights and market updates ✓ Save favorites, compare homes and get recommendations ✓ Connect with verified agents and schedule property visits ✓ Home loan assistance, EMI calculator and eligibility check ✓ Secure inquiries, offers and end-to-end communication ✓ User accounts, watchlists, alerts and notifications ✓ Admin dashboard to manage listings, users and content	 8. CHANNELS OF BEHAVIOUR What kind of actions do customers take online/offline? Extract online channels from #7 and use them for development. 8.1 ONLINE • Website (HouseHunt Home Buying Hub) • Search Engines (Google, Bing) • Social Media (Facebook, Instagram, YouTube) • Email & Newsletter • Online Reviews & Forums • Mobile App 8.2 OFFLINE • Real estate agents and brokers • Local property exhibitions and events • Word of mouth / Recommendations • Print advertisements and brochures • Open house visits	Extract online & offline CH of BE
	 4. EMOTIONS: BEFORE / AFTER How do customers feel when they face a problem or job and afterwards? Before: • Overwhelmed • Confused • Uncertain • Anxious • Time-constrained After: • Confident • Happy • Relieved • Excited • Secure • Satisfied			

Problem – Solution Fit Summary:

HouseHunt Home Buying Hub addresses the key problems faced by home buyers by providing a centralized, reliable and user-friendly platform. It saves time, reduces confusion, builds confidence, and simplifies the home buying journey from search to ownership.
